How to order centrifuge parts from Separators

Three ways to order, what to send, and the parts worth keeping on your shelf

1. Online
Submit your request **online**

2. Email
Send your list or photos to **parts@sepinc.com**

3. Phone: 317-484-3745
After-hours emergencies: **1-800-233-9022**

What to send us

Any one of these gets the order moving.
More info means a faster quote.

- Part number (if you have it)
- A photo of the part or your machine's nameplate
- Machine model or serial number
- A quick description (e.g., "bowl O-ring, cold milk separator")
- How soon you need it

Parts worth keeping on your shelf

O-rings, gaskets, and seals: Proper CIP means faster wear and tear

Custom service kits: Built for your machine, without the extras you'll never use

Spindle cartridge exchanges: Swap in a rebuilt cartridge and keep running

Motors, VFDs, and controls: Longer-lead items worth confirming before you need them

Why order from Separators

4,000+
centrifuge parts in stock

Same-day
shipping on in-stock parts

95%
fill rate

24/7/365
parts availability

Most in-stock parts ship the same day. Some parts carry longer lead times, and we'll confirm before you order.
